

User Requirements – WebDCB Banking (As of April 18, 2011)

As with most online applications, connectivity, user hardware, browser support and integration is critical to providing the best user experience. We work hard to make sure that the most popular systems represent WebDCB Online Banking properly and securely. Below is a summary of recommended hardware, browsers, and accounting software that we test and support.

Recommended Minimum User Hardware and Connection:

- Standard PC or Mac (Pentium IV/1 GHz processor or higher/500 Mb RAM or greater)
- Supported Operating System (XP SP2,Vista,7, Mac OS-X)
- Security, Anti-Virus and Spyware software with appropriate updates
- A valid email address and telephone number
- Dial-up supported for basic consumer users only

Microsoft Windows Operating System 98/ME/2000/XP/Vista/7
